STACK'S BOWERS GALLERIES

Chris Napolitano

President

A collector since childhood, Chris Napolitano joined Stack's-Bowers Galleries in December 2010 following an extremely successful career as the founder, president and CEO of Summit Rare Coins, Inc. With more than two decades of industry experience, Chris has handled in excess of \$250 million in rare coins, including 80 of the coins featured in the popular numismatic reference book by Jeff Garrett, *100 Greatest U.S. Coins*, along with many notable pedigrees. His numismatic knowledge is virtually unsurpassed, and he is happy to make himself available to consignors to discuss auction opportunities for their numismatic rarities and collections.

Q. David Bowers

Chairman Emeritus

Perhaps the best-known and most noteworthy numismatist of the last 50 years, Q. David Bowers' work with rare coins is so voluminous and so extraordinary that he was named by *COINage* magazine as one of the "Numismatists of the Century," among a multitude of awards and honors. During his illustrious career, he has catalogued and sold at public auction many of the finest and most valuable and important collections ever assembled. They include the Louis E. Eliasberg, Sr. Collection; the Harry W. Bass Jr. Collection; the Ambassador and Mrs. R. Henry Norweb Collection; the John Work Garrett Collection sold by order of The Johns Hopkins University; the Childs Collection; and myriad others.

Richard Ponterio

Executive Vice President

Richard Ponterio began collecting coins as a young boy at the age of 10. His interests first peaked in numismatics while working for his uncle who owned a vending machine company. During the summer, Rick would accompany his uncle along his route, re-stocking the machines and collecting the coins which had been deposited. At the end of each day, the two of them would search through the coins for dates and varieties they needed for their collections. In 1972 he decided to make numismatics his full time profession. From 1974-1982 he helped co-found the firm Ponterio & Wyatt, conducting mail bid auctions, price lists, and attending major coin shows. In 1982 he formed the company Ponterio & Associates which was accepted in to the I.A.P.N. (International Association of Professional Numismatists) in 1988, and served on the executive committee of the I.A.P.N. for eight years. He joined the P.N.G. (Professional Numismatists Guild) in 1979, and served on its board of directors for six years. He is an ANA life member and is the president of the New York International Numismatic Convention.

Christine Karstedt

Executive Vice President of Consignments

Christine Karstedt serves as executive vice president of consignments. A familiar figure at numismatic conventions and auctions for over two decades, Chris has built a vast auction contacts during her extensive career. She is well known at the podium, as a licensed auctioneer and also as a speaker for numismatic programs. Chris' ability to attract worldwide attention to the sale of numismatic material placed her at the center of the publicity program for the record-breaking \$100 million treasure of the *S.S. Central America* and the *S.S. Brother Jonathan*. Over a long period of years she has worked with hundreds of consignors and helped present the Louis E. Eliasberg Sr. Collection, the Harry W. Bass, Jr. Collection, the Ambassador and Mrs. R. Henry Norweb Collection, the Walter Childs Collection, the Dr. Haig A. Koshkarian Collection, the Oliver Jung Collection, and the Cardinal Collection. She is a member of the Professional Numismatists Guild, a life member of the American Numismatic Association and a board member of the Industry Council for Tangible Assets (ICTA). Her unstinting and tireless efforts have helped leading collectors and dealers worldwide obtain the very best prices for coins, tokens, medals, and paper money, working hand-in-hand with experts and departments within our organization.

In 1981, Nirat traveled to West Africa and represented an international venture that bought and sold gold and rough diamonds, and upon his return to the United States he launched his own coin company buying and selling rare U.S. and international coins. From 2005 to 2011, Nirat headed the International Coin division of R. M. Smythe and Company, and in 2008 he was placed in charge of the international coin division of Spink, U. S. A., then joining Stack's Bowers Galleries, where he remains internationally important. For the last 25 years, Nirat has been a major force in the Asian coin and paper money market, where he is widely recognized as one of the leading experts. In recent years he traveled extensively, seeking rarities from China, Hong Kong, Thailand, Straits Settlements, Korea, and other Asian countries, aided by his vast knowledge of Asian coins and paper money and his ability to communicate fluently in several languages.

Ron Gillio

Numismatic Acquisitions Coordinator

Ronald J. Gillio is an internationally renowned rare coin dealer, auctioneer, author and researcher who has been active and influential in numismatics for more than 45 years. He joined Stack's Bowers Galleries in early 2007 as numismatic acquisition coordinator and U.S. and World coin and currency specialist, a position that includes purchasing and obtaining consignments. Ron's involvement in numismatics literally spans the globe. He has conducted nearly 80 multi-million dollar auction sales in the United States, Europe, Hong Kong, Japan and Singapore, and his résumé includes such well known names as Pacific Coast Auction Galleries, Butterfield Auction Galleries, Robert R. Johnson, Inc., Baldwin's Auctions of London, Spink London, Taisei Stamps & Coins of Hong Kong and Singapore, and Butterfield-Johnson-Gillio. A respected member of the most esteemed numismatic associations, Ron is a past president of the Professional Numismatists Guild, as well as the recipient of the Founders Award, the highest honor of the PNG. He is a Life Member of the American Numismatic Association, a member of the International Association of Professional Numismatists for more than two decades, and founding charter member No. 11 of the Professional Coin Grading Service (PCGS).

Harvey Stack

Senior Numismatic Consultant

Harvey Stack is the son of Morton M. Stack and nephew of Joseph B. Stack, who formed Stack's rare coin business in 1933, where Harvey worked as a full-time staff member for 62 years, from 1947 until his retirement in 2009 as chief manager of business affairs. During those six decades, Harvey personally conducted more auction sales than anyone in the numismatic industry, and he appraised and cataloged countless numismatic rarities and was responsible for the sale of some of the most spectacular collections in history, such as the Anderson-Dupont Collection, the Davis-Graves Collection, and the Harold S. Bareford Collection. In 1996, Harvey addressed the U.S. House Banking Committee to propose the State commemorative quarters series, and when the program ended in 2008 the U.S. Mint estimated that 147 million people were collecting state quarters. Harvey has been a member of the ANA for more than half a century, as well as countless other significant numismatic associations.

Lawrence R. Stack

Senior Numismatic Consultant

Lawrence R. Stack, son of Harvey Stack, joined the family firm in 1973, having learned much of the business from his own study, dealing, and family experience. He is personally responsible for the development of many important and noteworthy collections and brought several significant collections to Stack's, including the John J. Ford Jr. Collection, the Dallas Bank Collection, as well as the world record sale of the highest price ever realized at auction for a rare coin, the legendary 1933 St. Gaudens Double Eagle that realized an astonishing \$7.59 million (the two latter sales in partnership with Sotheby's). An experienced collector, Lawrence has formed major collections of French Ecus, Five-Franc pieces, and Ecus d'Or, and his in-depth collection of Celtic and Anglo-Saxon coins ranks high among the finest ever assembled. His Renaissance medals collection is now one of the standard reference works for the field. He is a member of the ANA and numerous national and international numismatic associations.

Striking Choice About Uncirculated 1935 Twenty-Five Dollar

20077 Bank of Canada. \$25, 1935. P-48. (BC-11) A fantastic representation of this Commemorative issue which honored the Silver Jubilee of the reign of King George V. The note shows with dual portraits and an English bank title. The back shows a highly detailed vignette of Windsor Castle in pleasing purple inks. Nice centering and margins are welcomed and frame the design quite nicely. Strictly original paper is observed through the encapsulation surface and it seems only a couple highly minor corner bends prevent an Uncirculated grade. Surely one of the most pleasing circulated examples to come to market. **PMG CHOICE ABOUT UNCIRCULATED 58 EPQ** \$7000-\$10,000

Incredible Choice Uncirculated French Text Fifty

CANADA

20078 Banque Du Canada. \$50, 1935. P-51. (BC-14) This French text \$50 note is a rarity in all states of preservation and terrifically rare in Uncirculated grades. A scant 32,500 were printed for the catalog number and most were redeemed. It is among the most scarce of small size Canadian notes and surely missing from even comprehensive collections. The note has no previous auction history being safely tucked away with the others of this series we are offering.

Vivid inks are immediately noticed which resulted from a strong impression of the design. Deeply embossed overprints are also welcomed and easily noticed when looking through the PMG holder. The striking allegorical vignette laid to the back shows 'Modern Inventions' with a radio microphone and faint outline of a globe making up the background. Quite well centered which makes this impressive note also border on a Gem state.

Stunning Progress Proof Booklet

POLAND

20219 Bank Polski. 10 Zlotych, 2.1.1928. P-67p. Progress proof book with 16 pages of the printing process. An incredibly rare progress proof book which shows exceptional detail of all devices used to create this pleasing design, save for the portrait and eagle on reverse. The first seven pages of the booklet depict the face design with the first page showing a completed design, save for the portrait. Two pages of the brown frame are noticed next with the remaining four pages being different layers of the under-print. Two fully printed reverse proofs are sighted with all details showing save for the left facing eagle at lower center. Three pages of only the reverse frame are sighted with the remaining pages being different layers of the under-print. Incredibly pleasing and likely too see spirited bidding as we offered a similar item in our 2011 January New York sale which realized \$4,720.00. **CHOICE UNCIRCULATED** **\$3000-\$5000**

- 20221 Unspecified Issuer. 50, 100, 5,000 & 10,000 Marek, 1920's. P-NL.** 4 pieces in lot. Design trial proofs printed by OF-Z. A peculiar grouping of these mostly hand drawn designs. Each note shows with printed geometric under-prints and hand drawn coloring and stenciling. Each shows payable in Mareks which lead us to believe this was a group of proposed designs for the beginning of the Polish inflationary period. Highly interesting and completely unique as such. **UNCIRCULATED** **\$1000-\$1500**
- 20222 Unspecified Issuer. 1 to 10,000, 1920's. P-NL.** 15 pieces in lot. Design trial proofs created by OF-Z. A large group of hand drawn design trials which all show similar craftsmanship to the previous lot. It is hard to fully determine if these were intended designs for notes to be circulated in Poland. The wide spread of denomination does, however, suggest inflation. Nearly all show with simple under printed with hand drawn details on top of them. Some show with painted margins as well. Highly interesting and fully unique. **ABOUT UNCIRCULATED** **\$1000-\$1500**
- 20223 Unspecified Issuer. 1 to 50, ND. P-NL.** 5 pieces in lot. Another group which shows pieces which are somewhat similar to those included in the last lot. This note shows without clue as to what their intentions were in a circulation area. Similar style to the previous lots with printed under-prints and hand drawn details above. **ABOUT UNCIRCULATED** **\$400-\$600**

PORTUGAL

- 20224 Banco De Portugal. 10 Mil Reis, 22.5.1908. P-81.** A highly attractive example of this design which shows strong yellows within the under-print and purple and brown within the frame. 20220 Bank Polski. 10 Zlotych, 2.1.1928. P-67p. 12 pieces in lot. Progress proofs and color tests. EXTREMELY RARE Santiago Chile 8 Reales of Ferdinand VI

CHILE

20300 8 Reales, 1755/1 J. Santiago. Ferdinand VI (1746-1759). KM-5 (RARE); FC-3b(rarity 8); EL-Type-1 #4; Gil-SC-8-4a(Rarity 5); Jara Luedeking-CJ E-1755(RRR). Recorded mintage of only 17,419 pieces, all of which were struck August 18, 1755, from a single shipment of silver. Carlos Jara's reference "Las Primeras Acunaciones de la Casa de Moneda de Santiago de Chile" well documents the known examples of this series. The author knew of only three confirmed examples of this date, which included this specimen. Since the publication of Jara's work a fourth example was recently discovered in Europe, having been deposited for safe keeping in a bank vault during World War II. All known examples of this date are overdates, struck from the same die pairing. Although some references suggest the overdate is 1755/4, under high magnification it can clearly be seen as 1755/1. The existence of two examples dated 1751 would support this as there are no know Santiago Pillar Dollars dated 1754.

EXTREMELY RARE and one of the most sought after Latin American crowns issued under Spanish rule, and key to assembling a type set of Spanish colonial Pillar Dollars. Nice strike with good details on both pillars showing full "PLUS ULTRA" and well defined globes. Minimal wear visible on the high points and a few light surface marks, otherwise lustrous and very nice for this issue.

20301 8 Reales, 1777-DA. KM-31; FC-16 (R10, the highest rarity given); EL-23. An EXTREMELY RARE date, with only a small number of examples known. A slightly lesser example in the "Viceroyal Amat" hammered at \$2,100.00 in our March 1991 auction #46. It is interesting to note that for as rare as this coin is, this example is struck from a different reverse die than the Amat coin. A pleasing circulated example that is free of defects. **FINE.....\$2000-\$3000**

EXTREMELY RARE 1817 "FD" Chile "Volcano" Peso

20303 "Volcano" Peso, 1817-FD. KM-82.2; EL-80; Jara-pg.5, figure-2 (RARE). An EXTREMELY RARE and underrated coin with assayers letters FD. The vast majority of the 1817 issue, including the Spanish colonial types were produced by the assayers Francisco Rodriguez Brochero and Jose Maria de Bobadilla. It is currently believed that Republican coinage dated 1817 was actually struck in 1818 after the battle of Maipu April 5, 1818 which effectively destroyed the Spanish forces near Santiago, and ended the Chilean War of Independence. At this point the Republicans decided to retroactively date their coins 1817 to emphasize their sovereignty as a Republic that year. The FD assayer was only used for a brief period of time on 1817 "Volcano" Pesos as is evident by the few available examples today. The existence of the 1818/7 overdate further supports this as it clearly shows this die was latter re-cut for the production of the 1818 issues.

The finest NGC certified example of this RARE date and assayer combination. A beautiful coin that is fully lustrous with hard attractive surfaces, light golden toning in the devices, two natural planchet flaws. **NGC MS-63..... \$7500-\$10,000**

EXTREMELY RARE 1825 Chile "Volcano Peso

CHILE

20304 "Volcano" Peso, 1825-I. KM-82.2; EL-90. Extremely rare date that is key in assembling a date set of this popular type. By far the lowest mintage of all dates for Chile "Volcano" Pesos. Only 3,400 total pieces struck, many of which were no doubt used as planchets in Brazil and overstruck to become 960 Reis. In terms of availability, this coin is rarer than a Coquimbo Peso.

The only example of this date that has been certified by NGC, and the only "Volcano" Peso with a PROOF-LIKE designation. Lustrous white surfaces with a few faint scattered contact marks, very attractive and EXTREMELY RARE. **NGC MS-61 PL.... \$25,000-\$30,000**

EXTREMELY RARE Coquimbo Peso

CHILE

20305 Coquimbo. 1 Peso, 1828-TH. KM-88; EL-98; Jara Moreno Luedeking-Figure-13. Mint master Gregorio Cordoves, Dies prepared by Theodore Hagen. The area around Coquimbo is rich in mineral wealth, specifically gold and silver mines. At the time it was fairly problematic to ship bullion over long distances to Santiago in order to be made into coin form. A government decree authorizing the establishment of a mint in the port city of Coquimbo was issued in September of 1827. The Coquimbo mint effectively was to operate as a branch mint of the Santiago mint. However operations there were short lived as revolution broke out in 1829 and the mint was closed. Reportedly only 14 Examples are known to exist. This includes at least two examples which are housed in museum collections. One in the Banco de Chile collection (ex: Oscar Salbach, Schulman February 1911), the other in the British Museum collection (Acquisition#BTW PS304747, inventoried in 1877) acquired as part of the Bank of England collection is 1856 (Collection#M 1244).

EXTREMELY RARE. Arguably among the most famous of all Republic period Latin American crowns.

VERY RARE 1923 Eight Piece Danzig Proof Set

DANZIG

20379 8 Piece Proof Set. 5, 2, 1, 1/2 Gulden, 10, 5, 2 and 1 Pfennig, 1923. KM-Ps1; Parchimowicz-53, 54, 55, 57, 59, 61, 63 and 65.

At the end of World War I Danzig broke away as a "Free City" accountable to the League of Nations. It was during this period that neighboring nations like Germany were undergoing hyperinflation and issuing mass quantities of paper money. In order to combat said inflation, Danzig opted to issue new coinage in 1923 based on the Gulden system, rather than the failing German Mark.

While PROOF issues from Danzig are RARE, it is VERY RARE to find an intact proof set. Many original proof sets are no longer together, having long since been dismantled and many have been mishandled. Housed in a custom Capital Plastics holder. All are lightly toned, a nice evenly matched set, Choice **PROOF.** **\$4000-\$6000**

EXTREMELY RARE Pattern For The First Crown Sized Denomination of The Dominican Republic

DOMINICAN REPUBLIC

20385 10 Reales Pattern Struck Silver, 1855. KM-Pn1 (plate coin, listed as 3 known struck in silver); Estrella Gomez-No.81. Reeded edge.

Pattern for the first Republican crown for the Dominican Republic. Although the Dominican Republic gained its independence from Spain in the early 1800's, it was soon after taken over by Haiti. It was not until 1844 that it gained independence and was declared an independent republic. This very rare pattern is for what was intended to be the first crown sized issue for the Dominican Republic. It is interesting to note that it is denominated the same as the largest silver issue produced while the island was under Spanish control. In the 1500's the Spanish issued a 10 Reales during the reign of Charles and Johanna. Although the pattern was well executed in design and manufacture, it seems that this denomination would be considered impractical. Most other Latin American countries at this time were producing crowns in the denomination of 8 Reales, shortly thereafter converting to the Peso decimal system. It would not be until 1891 that the Dominican Republic issued its first crown sized coin, the 5 Francos. Recently a specific gravity was performed on this coin by NGC, confirming that it is in fact solid silver and not one of the silver plated examples. This raises an interesting question as to just how many silver examples actually exist. While reports suggest the number is only three, it is in all likely possible that copper examples bearing a heavy silver plate have been mistakenly catalogued as solid silver.

Ex: Jess Peters Public Auction No. 78 April 1975, lot#450 "The Ray Byrne collection of Coins and Tokens of the Caribees", where it was mistakenly catalogued as silver plated copper. The introduction to the Dominican Republic section in this catalog states "The rarest coin of this island was the pattern, 10 Reales dated 1855".

Ex: Heritage June 2006 Long Beach auction lot#16865, "The Whittier Collection of Latin American Coinage", where it was described as "One of the great rarities of the entire Latin American Numismatic series" and chosen as the sole front cover coin for that catalogue. **NGC MS-62.**..... **\$40,000-\$60,000**

Silver Pattern For The First Federal Dollar Sized Coin of El Salvador

EL SALVADOR

20389 1 Peso Pattern Struck in Silver, 1861. KM-Pn3. Reeded edge. El Salvador is the smallest and most densely populated country in all of Central America. Although it gained independence from Spain in 1821 it was quite some time before the country issued its own federal coinage. It remained part of the Central American Republic until the federation dissolved in 1839, and El Salvador became an independent republic in 1841. The first attempts at the production of a federal coinage were made in 1861 during the presidency of Gerardo Barrios. Although coinage was issued in El Salvador prior to this, it was limited to provisional issues and the countermarking of foreign coins. Although well executed in style and design the 1861 Barrios coinage failed to reach fruition. Although a good president, the political view of Barrios found El Salvador at war with Guatemala. Inevitably this led to Guatemala taking full control of the capital city of San Salvador. Barrios fled to Nicaragua where he was captured and extradited back to El Salvador. Shortly thereafter, he was tried and executed. The dream of issuing El Salvador's first federal coinage died with Barrios. It was nearly three decades later that El Salvador commissioned the Heaton mint for the production of its own coinage.

EXTREMELY RARE and very underrated as this represents what was intended to be the first federal dollar sized coin of El Salvador. Experts suggest that there are only 2-3 genuine specimens of these coins known. Most examples seen in the market place (including off metal strikes) are forgeries produced in the mid to late 20th century. The coin represented here is one of the few known genuine examples.

20446 1731 Set Medals of the Kings and Queen of England Copper Bronzed. Average 41 mm. This set opens with a medal of William the Conqueror, who seized the throne in 1066 and found the Norman dynasty. Each succeeding medal features a bust a King or Queen with the reverses bearing a stylized tomb for each monarch. The portraits in uniform style span the Middle Ages and continue on through the Tudor, Stuart and Hanoverian dynasties. The set even includes a medal of the regicide Protector Oliver Cromwell, made deliberately smaller to differentiate his *de facto* rule from the reigns of legitimate Kings and Queens. All monarchs portrayed, including William I the Conqueror, William II, Henry I, Stephen, Henry II, Richard I, John, Henry III, Edward I, Edward II, Edward III, Richard II, Henry IV, Henry V, Henry VI, Edward IV, Edward V, Richard III, Henry VII, Henry VIII, Edward VI, Mary I, Elizabeth I, James I, Charles I, Cromwell, Charles II, James II, Mary II, William III, Anne, George I, George II, Queen Consort Caroline. In addition the set contains the 1731 Dedicatory Medal with the same George II bust but a reverse presenting a Latin *dedication to the Most Serene King George II of Great Britain, France and Ireland by Jean Dasser, Monetary Senator of the Republic of Geneva.* Individual examples of the Dasser set are not necessarily rare, and evidence of light die rust and die cracks on many pieces suggests striking for an extended period. This set, however, has remained together over the centuries in safe storage environments and is virtually pristine. Each medal displays the richest glossy brown surfaces, a hint of die rust on some, but is undoubtedly as perfect a set as is likely to be found anywhere in the 21st Century. Its offering in the present sale offers a marvelous opportunity to the knowledgeable collector who may have despaired of ever assembling a uniformly high condition set without years of effort. 20448 Complete 40-Piece Set of James Mudie's National Medals, 1794-1817. Lawrence Brown and Christopher Eimer place medals in the following order: 1817 George II Dedication; 1602 British Settlement at Bombay and Victory over the French; 1794 Naval Victory of the First of June; 1797 Battle of Cape St. Vincent; 1797 Battle of Camperdown; 1805 Horation Nelson Memorial; 1799 Defense of Acre; 1801 Arrival British Army in Egypt; 1801 Egypt Delivered; 1815 Victory Honors to Scottish Regiments; 1813 Colors Presented to Royal Military College; British Army Arrives in the Peninsula; 1808 Battle of Vimera-Entry in Lisbon; 1809 Death of Sir John Moore; 1809 Passage of the Duorol; 1809 Battle of Talavera; 1810 British Army of the Tagus; 1811 Battle of Albuera; 1812 Capture of Bada-joz; 1812 Battle of Almarez; 1812 Battle of Salamanca-Entry of Madrid; 1812 Battle of Vittoria; 1813 Battle of Pyreness; 1813 Battle of San Sebastian; 1813 Surrender of Pamplona; 84 Battle of Toulouse; 1814 Peace in Europe; 1814 Britain Gives Peace to the World; Treaties of Paris, 1814-1815; 1814 Visit of Allied Sovereigns to England; 1814 British Army Reenters Hanover; 1815 British Army in the Netherlands; 1815 British Charge at Waterloo; 1815 Battle of Waterloo; 1815 British Army Enters Paris; 1815 Napoleon Surrenders to Captain Maitland of HMS Bellerophon; 1814 Napoleon on Saint Helena; 1816 Admirable Lord Exmouth; 1817 British Give Constitution to the Ionian Islands. James Mudie published what he styled *The Grand Series of National Medals*, though they were a product of private initiative. The medals were struck for him by Sir Edward Thomason at his famed Birmingham manufactory. It is ironic that he employed several accomplished French medalists who had just completed numerous medals of Napoleon and now engraved dies for English celebration of his defeat and exile. Mudie's Prospectus went to great lengths to explain his reliance on so many foreign artists, stressing that English medallic artists, however talented, "have not yet reached the delicacy, precision and finish of French and Italian Medalists." Brown in *British Historical Medals* notes that Mudie invested more than 10,000 Pounds in creating his series, a stupendous amount for the time, adding "generally speaking, a complete set in bronze may be described as rare..." This delightful set is uniformly high quality, united by exquisite medium glossy brown surfaces and the most meticulous strikes throughout, making it an acquisition difficult to match and more difficult to improve. (Total: 40 pieces). **UNCIRCULATED-CHOICE UNCIRCULATED.** **\$2500-\$3500**

20450 (1887) Sculptor's Model of the Victoria Jubilee Bust. Plaster uniface, irregular pentagon 120 x 9.3 mm; By Sir Joseph Edgar Boehm, Bart. Mature Victoria bust left with meticulously pointed nose and features left, wearing veil and tiny crown. The Queen's necklace and Royal House Order are fully detailed, artists signatures JEB is incised on the truncation. This model's smooth surfaces are lightly soiled from long exposure to the air and handling over more than a century. The five-sided plaster more or less follows the contour of the relief bust. This original sculptural work was part of the Wyon Family Collection. Joseph Edgar Boehm was born in Vienna in 1834, son of J.D. Boehm, medalist and gem engraver. Settling in England after 1862, the younger Boehm was appointed sculptor in ordinary by Queen Victoria and was made Royal Academician. He was commissioned to prepare a new royal coinage portrait for the Golden Jubilee in 1887 to supersede the long-lived Young Head introduction in 1838. This new coinage of 1887 used the portrait shown on this model. Perhaps because it was mercilessly true to life, the bust was greeted with hostility and was the target of unrelenting criticism. It was replaced by Thomas Brock's Old Bust only six years later. In spite of the critics, the Jubilee bust brought the sculptor a Baronetcy and lasting fame on the world of numismatics. **ABOUT UNCIRCULATED.** **\$2000-\$2500**

20451 George V, 1910-1936. Plasticine Die Impression of the Obverse of the George V Crown, 1937. 50.2 x 9.7 mm, die face 37.3 mm; By Bertram MacKenna. Modified effigy left in Latin legend GEORGIVS V D. G. BRIITT: OMN: REX F.D. IND: IMP: Toothed border, all characteristics are those of the Crowns struck 1927-1936. Plasticine was an artificial substance still used today in molding of medal designs, offering greater hardness and durability than simple plaster. The back shows hair-fine concentric circles, undoubtedly from lathe work. Here is a rare and desirable artifact of the change-over in Fifth Georgian coinage that saw re-introduction of the Crown for the first time since 1911. **UNCIRCULATED.** **\$1000-\$1500**

The second year of issue of New World "Pillar Dollars". During this year the Mexico City Mint was still undergoing the process of modernizing with new minting equipment. Three types of 8 Reales were produced this year which included cobs, klipjes, and the milled 8 Reales. For this reason the exact mintage for this type is unknown. It can be certain that it was quite low compared to later dates when the mint was fully equipped for the production of milled coinage.

- 20602 10 Reales Pattern Struck in White Metal (obverse silver plated), ND (1854).** 37.4 mm; 19.14 gms. cf. Pratt-M45 (listed in silver); cf. VG-3654 (listed in silver); KM-unlisted. Plain edge, medalllic die axis. Trial strike for the Paraguay 10 Reales pattern muled with a Napoleon III 5 Francs obverse, very odd mule was produced at the Paris mint. This die pairing was never intended to be submitted for consideration as a pattern. It falls more along the lines of a very early example or trial piece. Upon completion of the Paraguay 10 Reales die, it was then paired with an existing French 5 Francs die, simply because they are of the same diameter. The 5 Francs side is silver plated, while the 10 Reales side is produced in a much softer white metal. 20608 8 Reales, 1823-JP. KM-117.3; FC-85b. Overstruck on a Republic 1822 "Peru Libre" 8 Reales KM-136. On several occasion during the War of Independence, control of the city of Lima shifted back and forth between Royalist and Republican forces. Under the command of generals Canterac and Valdez, Royalist forces successfully re-captured the city June 18th 1823. Mandatory financial contributions were enforced upon the people of Lima in support of the Royalist cause. Contributions collected in the form of the "Peru Libre" Republican type, were then overstruck with conventional colonial dies bearing the effigy of Ferdinand VII. Prior to evacuating the city on July 16 1823, Royalist forces shipped much of the minting machinery to the city of Cuzco before setting fire to the mint in Lima.

EXTREMELY RARE, very interesting and historically significant as it's minting can be pinpointed to a brief period of just under a month during the War of Independence. Well struck and attractive, much of the under type is still visible, lightly toned. **NGC XF-40.** **\$1200-\$1600**

VERY RARE Uncirculated Sierra Leone Dollar

SIERRA LEONE

20703 Dollar, 1791. KM-6; Vice-FT-2. During the American Revolutionary War, British officials promised freedom to black slaves who sided with them against the continental army. After Britain's loss, at the end of the war, many of these black conscripts fled to Nova Scotia Canada to escape persecution. The ex-slaves were referred to as "Nova Scotia Settlers". In keeping their end of the agreement, the British formed the "Sierra Leone Company" in order to colonize Sierra Leone and began the relocation of these ex-slaves to Africa. For obvious reasons the capital city of Sierra Leone was named "Freetown". The coinage of this newly formed British colony display a white hand and a black hand shaking, clearly displaying that the British kept their word in granting these ex-slaves their freedom. Mintage of only 6,560 pieces struck in May of 1793 at the Soho Mint, Birmingham. Although dollars from Sierra Leone are generally quite scarce, they are VERY RARE in uncirculated condition. In fact it is probably easier for a collector to obtain a proof when seeking a high grade example, rather than an uncirculated. **NGC MS-62. \$3500-\$5000**

High Grade "Single Shaft" South Africa 5 Shillings

SOUTH AFRICA

20704 5 Shillings, 1892. KM-8.1; KJ-147. "Single Shaft" wagon. There are two major varieties for the 1892 5 Shillings, "Single Shaft" and "Double Shaft". Both were designed by Otto Schultz and tell a very interesting story. With presidential elections closely approaching, President Kruger desperately wanted to release new coinage into circulation as soon as possible; however, at this time the Pretoria mint was still under construction. Kruger not wanting to wait contracted with the Royal Prussian Mint in Berlin to produce the first series of coinage. This proved to be a mistake that nearly cost Kruger the election.

The German die engravers were unfamiliar with the style of wagon used in South Africa and engraved them in the style of a European wagon. Although the design was well executed, the wagon was depicted with two shafts and two equally sized wheels. This differed from the normal "single shaft" wagon or "Voortrekker wagon" used in South Africa which typically was depicted with a much larger wheel in the back. Although this seems like a very subtle difference, it nearly cost Kruger the presidency. Kruger's political opponents immediately noticed the incorrect depiction of the "Voortrekker wagon" on the national coat of arms and declared this "an insult", insisting that the engraver Otto Schultz initials "OS" represented the Dutch word for an Ox. Kruger took full ownership for this error and quickly had the appropriate design changes made. Lightly toned with very original surfaces.

Massive Silver Trasure Bar

SPANISH COLONIAL

20705 1715 Treasure Fleet Wreck Cast Silver Bar, Sebastian Inlet, Florida. 37 x 13.4 x 5.3 cm; 39.81325 troy pounds. Crudely rectangular, top surface is inscribed UCCUV Cevallos XC with a possible shield of arms below. These marks may have identified the founder and possibly a batch number in the run of casting. Recovered by Kip Wagner's Real Eight Salvors in Florida's Sebastian Inlet in the 1960s; source of the thousands of gold and silver Cob coins and marine artifacts. This was the largest silver bar ever recovered in American waters up to that time and remains unique today.

There is only one date side die for this issue, which can be easily identified by a small bulge near the 2 of the date. As stated in Jansen, the reverse die from 1831 re-worked in 1832, hence all examples of this date are overdates. A very nice example of this highly popular type. EXTREMELY RARE General Rosas Portrait 8 Escudos

ARGENTINA

21010 La Rioja. 8 Escudos, 1842-R. Fr-10; KM-14; CJ-51; LaOnza-1575. General Rosas. Ex: Louis E. Eliasberg collection, American Numismatic Rarities April 2005 auction, lot#1011. Ex: John H. Clapp collection; Clapp estate to Eliasberg 1942.

This EXTREMELY RARE portrait issue depicting the bust of Juan Manuel de Rosas in military attire is somewhat of a revival type of the 1836 issue. Perhaps the reason for this is to publicly show that Rosas was still very much alive after a failed assassination attempt the previous year. In March of 1841 Rosas was sent a diplomatic box containing a firing mechanism intended to ignite when opened. Historians share mixed opinions of Rosas. Some claim he was a cruel dictator, while others claim that in those turbulent times, this chaotic nation needed a dictator that ruled with an iron fist. Many of the negative views of Rosas were not necessarily the view of the nation. Instead they were the effect of wide spread propaganda from political opponents. In one case a large group of demonstrators gathered at the gates of the legislature to protest a suit brought against Rosas. The troops that were sent to disband the protestors mutinied and joined the protest until the suit was dropped.

Light smoothing to the portrait, perhaps to subdue adjustment marks, rich orange gold toning.

The Only Costa Rica 1/2 Onza Certified as Mint State by NGC

COSTA RICA

21082 1/2 Onza, 1850-JB. Fr-7; KM-100. One year only type coin. While intended to be high relief in design, this series is typically lacking in central details. Although the personification of liberty is well executed, the dies were cut with such depth it would require a tremendous amount of pressure to properly strike. Hence very typically this issue is found with a soft central strike on liberty's waist and chest, with a corresponding area of weakness on the reverse. This striking deficiency hindered the survival rate of this type in high grade. The highest points on the coin are generally flat, and are by nature the first area to gather wear. Thus upon entering circulation most of this issue dropped drastically in grade with the slightest amount of wear.

EXTREMELY RARE in high grade and the only example certified as mint state by NGC. Very original surfaces with satiny mint luster, **NGC MS-64.** **\$7500-\$10,000**

Highly Romantic Ferdinand Maria & Henriette Adelaide Wedding Commemorative

GERMANY

21118 Bavaria. 3 Ducats, 1652. Ferdinand Maria (1651-79). Fr-200; KM-285. Struck to commemorate the wedding of Crown Prince Ferdinand Maria and Henriette Adelaide, Princess of Savoy. Their marriage was fruitful and harmonious, bearing eleven children, although only seven of the reached adulthood. Even though minted in Germany, this coin clearly shows characteristics of being Italian in design. While the reverse is clearly of German origins, the obverse is very similar to contemporary Italian issues from the House of Savoy. Ferdinand Maria had hired several Italian artists of the time to work within Germany on building projects and other activities. One would speculate that one of these Italian artists produced this obverse design. The Princess of Savoy would surely find the design of this coin both pleasing and flattering. It displays their newly bound commitment of marriage timelessly impressed in a fusion of German and Italian styles.

Ex: Dix Noonan Web September 2005 Auction, Lot #706 "The Joanna Tansley Collection of Patterns, Proofs and coining trials" where it hammered for 15,000 British pounds. To the best of our knowledge this was the first place this piece was published as a proof or presentation piece.

The previous cataloger stated "Although not listed by Wilson and Rasmussen, this is clearly a well struck and carefully finished piece. The dies are well centered, the beaded borders well within the rims and the fields of superior proof-like finish, suggesting that comparison with the proof or presentation five guineas of 1760 (WR 48) would not be amiss. That it should occur for the first year of the denomination's issue may also be significant". While we completely agree with this analysis we find it also worth mentioning the upset rim present on both obverse and reverse. This characteristic is not normally found on British gold of this era and is indicative of a proof issue.

Without question EXTREMELY RARE, perhaps even UNIQUE. Light wear noticeable on the high points, rich orange gold tone, proof surface. **NGC AU-55**..... **\$15,000-\$20,000**

The First Republican Onza of Central America Independent from Spain

GUATEMALA

21184 8 Escudos, 1824-M. Fr-26; KM-8; La Onza-1751; Onza Main-1862; Prober-19-E. VERY RARE first year issue for this two year type coin. In this cataloguers opinion this is one of the most attractive designs for all Latin American 8 Escudos. Absent of the normal striking deficiencies and adjustment marks normally associated with this type.

Well struck, showing bold details, full sun, all of the leaves on the tree as well as the denomination which is often weak. Very high grade showing only light rub at the high points and minimal surface marks. One small un-offensive planchet flaw on the reverse. Good eye appeal and very choice for this RARE issue.

EXTREMELY RARE 1894 10 Pesos Pattern in Gold

GUATEMALA

21187 10 Pesos Pattern Struck in Gold, 1894-CB. Heaton Mint in Birmingham. Fr-46 (large head type); KM-Pn14; Sweeny-GA8p. Up until the 1890's, the Guatemala mint produced all of its country's coinage. By 1894 the mint had reached full production capacity, and with a growing economy was unable to fulfill coinage demands. Until a solution could be made, this was temporarily remedied by the coinage act of 1894, where foreign coins were countermarked and placed into circulation. Guatemalan officials then contacted the Heaton Mint at Birmingham as well as the Paris Mint in France to submit patterns for consideration in order to gain outside minting rights. The French proposal was designed by Jean LaGrange, Chief Engraver of the Paris Mint. Although very well executed and very attractive, the French design was rejected. In all likelihood this was due to the more indigenous personification of Liberty. The English proposal was more European looking in nature and more befitting of a new decimal series for this emerging country. Acting as Agent for the Republic of Guatemala a contract was then placed with the Heaton mint through the firm of Chalmers, Guthrie & Co. of London. As a result from 1894 to 1924 the Heaton Mint at Birmingham acted as sole outside supplier to the Republic of Guatemala. EXTREMELY RARE, only 17 pieces minted. Beautifully executed style, attractive orange highlights in the devices, **PCGS SP-63.**

When including the two known pieces dated 1889, there is a total of 15 pieces known of the 10 Pesos as a type coin. **NGC AU-50.....\$18,000-\$22,000**

EXTREMELY RARE First Milled 4 Escudo of Mexico

MEXICO

21279 4 Escudos, 1732-F. Philip V (1700-46). Fr-9; KM-135 (rare); Cal-type-52 #237; Lopez-Chavez-Sanchez-151 (rarity X, "only a few specimens known"). With the introduction of new minting equipment and gradual phasing out of older coining methods, the Mexico City Mint underwent dramatic changes during the early 1730s. A royal decree issued June 9 1728 authorized the Mexico City Mint to strike new milled coinage. This set in motion a series of events that would drastically change and modernize the mint. New equipment was sent from Spain to the mint at Mexico City, this included screw presses, edging machinery, as well as machinery for properly preparing round planchets. After the arrival of this new equipment the first milled coinage went into production March 29 1732. Prior to this date the mint used the method of hammering coins by hand. The first year of issue for milled coinage. Of the utmost rarity and importance. Small depression near "D" in legend, light orange toning in the devices, still traces of luster between the letters. **Bold VERY FINE+.** **\$20,000-\$25,000**

The First Machine Struck Coin of Morocco

MOROCCO

21305 10 Mithquals (10 Riyals), AH 1201 (1787). Madrid Mint. Mohammad III (AH 1171-1204 (1757-90)). Fr-4; KM-PnA1 (previously C#45); Cadoury-pg.303#1. **EXTREMELY RARE** and seldom offered. The first machine struck coin of Morocco, and the first coinage ever ordered by an Islamic Republic from a European mint. Authorization to produce this issue was granted January 13, 1787 under Sultan Mohammad III. Although listed in some references as a pattern, this issue was clearly intended for circulation. In June of 1787, patterns were dispatched from Madrid to Morocco to seek the approval of the Sultan. After some design modifications approval was given to begin production September 22, 1787. A total of 10,000 pieces were struck from bullion being stored in the city of Tangier. Although well executed, for multiple reasons this issue was destined for failure. The first reason was logistical, as the shipment arrived late, after the death of Mohammad III. The new Sultan Muhammad al-Yazid would not want to place these coins of the previous ruler into circulation. The coins also bear the name of the Madrid Mint in Arabic. This would compromise their acceptance among the Moroccan people as there was tension between the two countries. Needless to say, nearly the entire mintage was recalled and melted down. Gadoury states less than ten examples survive, some of which we have to assume are impounded in museum collections. Very interesting and historically important. Light orange tone. **NGC EF-45**..... **\$8000-\$10,000**

PERU

21332 Fantasy Cob 4 Escudo, 1701. Carlos II (1665-1700). Cayon Tipo-132 or 142. Type of Lima Cob Coinage. Jerusalem Cross, sketchy castles and fox-like lions in the angles within garbled legend *CARLOS-HISPAAN IAUM+*; Reverse: Crown over pillars of Hercules that bear a close resemblance to palm trees or even leeks, separating nonsense inscription *L-4-H/P-V-A/7-0-1* above three waves, legend *ET INDIANA RVM. REX*. Attractive pale yellow gold, remarkably well detailed. This 37.5 x 30.9 mm, 9.1 gm piece presents a number of mysteries. First, there was no King Carlos reigning in 1701, Carlos II having died in 1700 and the Hasburg pretender to the Spanish throne, Carlos III, is not known to have issued any high-denomination coins of any type. This fascinating piece has a larger diameter than the Cob 8 Escudos and vastly larger than the contemporary Cob 4 Escudo. In addition, the weight is significantly lower than the 13.5337 grams of a genuine 4 Escudos, and the design is by no means a carbon copy of a genuine coin. Perhaps like the producers of British "evasion coppers" the makers of these Spanish types hoped to avoid persecution by demonstrating that they had not closely copied the official design. The late Joseph Lasser, researcher and benefactor of Colonial Williamsburg, once told the cataloger about the publicly tolerated operations of makers of such evasion or copy coins of Spanish type working in cities such as New York in the late 18th and early 19th Centuries. The great Ephraim Brasher's Lima style Doubloons were, after all, unofficial copies of the same general design. It is also possible that this fascinating concoction is related to the pieces cataloged as *imitaciones* in *The Onza Main Book* by Ferran and Xavier Calico. **EXTREMELY FINE.**..... **\$1000-\$1500**

EXTREMELY RARE "Rat-Nosed" hybrid Lima 4 Escudos

21335 4 Escudos, 1770-JM. Lima. Charles III (1759-1788). Fr-29; KM-71.2; Calico-type-34 #275; Lopez-Chaves Sanchez-42. This EXTREMELY RARE type exhibits a portrait this is unique to the Lima mint. It can best be described as somewhat of a hybrid portrait. While the drapery and armor cuirass used for this bust are typical of the earlier young bust or "rat-nosed" type, the head is more indicative of a middle aged or older portrait of Charles III, which is normally associated with coinage in the later 1770's-1780's. This portrait was not used by the other Spanish colonial mints, and was only produced at Lima Peru for a very brief period of time. By far the finest example of this type this cataloguer has had the privilege of seeing.

EXTREMELY RARE & Impressive Erfurt 10 Ducats

**SWEDEN**

21421 Erfurt. 10 Ducats (Portugaloser), 1645. Christina (1632-48). Fr-926 (Germany & "Very Rare"; KM-90 (Germany & "Very Rare"; AAJ-pg.173 #30 (rarity XR none or few specimens in private collections). Christina was the only surviving child of King Gustav II Adolph. She succeeded the throne at age six, upon the death of her father during the Thirty Year War at the Battle of Lutzen. She ruled from more than a decade before abdicating the throne to her cousin Charles X. Shortly after her abdication, she left Sweden in 1654 to pursue a life of culture in Rome. At this time there was still a great deal of tension between Sweden and Denmark, and it was considered unsafe for a Swedish Queen to travel through Denmark. It is said that upon reaching the Danish border she dressed in men's clothing, and proceeded through Denmark on horseback dressed as a man. Although she ruled well as Queen, she wrote in her autobiography "In my opinion, women should never reign". Light smoothing of the obverse fields, probably done long ago and is not uncommon on presentation issues of this nature. Well struck, attractive, and very impressive. **NGC XF Details—Repaired.** \$15,000-\$25,000

Extremely Rare Pattern for the First Gold Coin of Uruguay

URUGUAY

21435 1 Doblón Pattern Struck in Gold, 1870. Fr-2 (plate coin); KM-PnA31. Proposed 20 May 1862, enacted 23 June 1862, I declare a Doubloon of Gold as the national currency of the Republic (as prepared in article 4), jointly with half and quarter Doubloons with subsequent weights in silver. Article 7 of the law states the Gold Doubloon is to be equal in diameter to that of the Chilean 10 Pesos. The design should be that of the arms of the republic and the inscription to read "REPUBLICA ORIENTAL DEL URUGUAY". The reverse should bear the denomination between two laurels of the olive tree and the inscription to read "LIBRE Y CONSTITUIDA" (as prepared in article 6). It is interesting to note that the smaller gold denominations were prepared in denominations of 5 Pesos, 2 Pesos and 1 Peso. This is greatly deviated from requirements set forth by the law of 1862 stating the smaller denominations should be 1/2 Doubloon, 1/4 Doubloon, and 1/10 Doubloon and ultimately lead to this series failing to reach circulation. Of this coins produced in this series the Doubloon was the only denomination that was in accordance with the law. As referenced "El Regimen Monetario Del Uruguay" 1958, very few test of the Doubloon were executed in gold. In the same reference Ricardo Elicabe mentions the existence of an essay struck in copper that was executed in 1870 as well as one in a different class of metal. Currently we are aware of only two examples produced in gold, as well as one in copper and one in gilt bronze.

EXTREMELY RARE with only two examples known in gold. Highly important as this coin represents what was intended to be the first gold coin of Uruguay, and thus the largest denomination. Ex: J.C. Morgenthau and Co. (Wayte Raymond) sale of the Waldo C. Newcomer Collection February 1935, Lot #559. Ex: John H. Clapp estate to Louis E. Eliasberg Sr. 1942. Exceptional Rhegion Tetradrachm of Fine Style

Rhegion, a Greek colony in the "toe" of Italy opposite Messina, was founded by Chalkis in approximately 720 B.C. Under the tyrant Anaxilas (494-476 B.C.), Rhegion extended its authority to include Messina. With the expulsion of the sons of Anaxilas in 461 B.C., Rhegion ceased to be ruled by a tyrant. In fact, in 433 B.C. was in alliance with Athens. It is curious that Rhegion did not support the Athenian expedition of 415 B.C. against Syracuse, particularly since Dionysius I, tyrant of Syracuse was actively supporting Lokroi Epizephyrii, Rhegion's principal rival in southern Italy. Perhaps Rhegion hoped Athens would solve its problems with Dionysius while it focused on its rival Lokroi. However, with the destruction of the Athenian expedition in 413 B.C., Dionysius sought hegemony over the Greek and Sicel towns of Sicily and then turned his attention toward Italy, destroying Rhegion in 387 B.C. After the fall of the tyranny in 461 B.C. Rhegion abandoned the mule car/hare type introduced by Anaxilas. And returned to the Samian-inspired facing lion's scalp, recalling the early Samian exiles whom Anaxilas had prevailed upon to seize the town of Zankle. It was later renamed Messina. In approximately 415 B.C. it replaced the seated figure of the mythical founder Lokastos with the laureate head of Apollo. The result was an exceptionally powerful coin, finely detailed, and of extraordinary beauty. **NGC Ch XF, Strike: 5/5 Surface: 3/5, Fine Style**. **\$7000-\$9000**

Magnificent High Relief Facing Silenos

SICILY

21454 Catana. AR Hemidrachm (1.94 gms), ca. 410 B.C. BMC-44; AMB-333; Jameson-555; SNGFitzwillian-960. This Hemidrachm is remarkable for two reasons. First, and most obviously, it is an exceptional piece of die engraving in miniature, carefully produced by a mint experience in striking finely detailed designs. It is also remarkable as a type. The choice of Silenos was a departure from the usual quadriga/ Apollo head that dominated the coinage of Katane. To find a precedent one must look back to a Tetradrachm, generally attributed to Aitna. In 476 B.C., Hieron of Syracuse has removed the inhabitants of Katane to Leontini, repopulated the city with Syracusans and Peloponnesians, and renamed it Aitna. In 461 B.C., the original inhabitants returned to Katane and revived the old name. The Silenos Tetradrachm is traditionally dated between 476 and 461 B.C. when the city was in the Syracuse orbit. However, the reappearance of Silenos in 410 B.C. when Katane and Syracuse were bitter enemies, would be odd if Silenos was associated with Syracusan denomination. A better solution is provided by dating the Silenos Tetradrachm to ca. 460 B.C., when the exiles from Katane had regained their city and Silenos this becomes a symbol of liberation from Syracusan rule. **EXTREMELY RARE. Impressive Derrones Silver Dodekadrachm

21476 The Derrones. AR Dodekadrachm (34.94 gms), ca. 480-465 B.C. Svor Hellen-pl.I.12; cf.SNGDewing-1015. Slow biga right, driven by two oxen, crested Corinthian helmet above; Reverse: Triskeles. Large sized Thraco-Macedonian silver issues are virtually all flat on the reverse. In this cataloguer's opinion, these coins were struck in a two part process. The reverse being the first side struck with a single die on a flat surface. The planchet is then turned over and struck a second time using the obverse die. Careful examination of the reverse supports this as the triskeles shows evidence flattening after its initial strike. The even flatness of the reverse surface also supports this, as does close examination of the edge.

Well struck on a broad flan, natural edge split and a thin band of peripheral horn silver deposits. **NGC XF, Strike: 3/5 Surface: 3/5, Horn Silver.**..... **\$7000-\$10,000**

21591 AR Denarius (3.68 gms), Rome Mint, 37 A.D. RIC-2; BMC-3. Bust of Caligula facing right; Reverse: Radiate deified bust of August facing right, flanked by two stars. The presence of stars flanking the deified bust of Augustus is possibly a representation of Halley's comet. Caligula chose to use the same symbolism Augustus used for his predecessor, in honoring Augustus with this deification issue. Halley's comet over the years has been associated with several historical events, including the battle of Hastings. Some theologians even believe the appearance of Halley's comet may explain the biblical story of the "Star of Bethlehem". RARE, especially so in this state of preservation. TERMS & CONDITIONS

1. Auction Basics. This is a public auction sale ("Auction Sale") conducted by bonded auctioneers, Stack's Bowers Galleries or Stack's Bowers and Ponterio (hereinafter referred to as "Auctioneer" and at times as "Stack's Bowers"). Bidding in this Auction Sale constitutes acceptance by you ("Bidder") of all the Terms of Sale stated herein. Bidders may include consignors who may bid and purchase lots in the Auction Sale consigned by the consignor or by other consignors pursuant to their consignment agreement with Stack's Bowers ("Consignor" or "Consignors"). A Consignor that bids on their own lots in the Auction Sale may pay a different fee than the Buyer's Premium charged to all other Buyers. Stack's Bowers reserves the right to include in any auction sale its own material as well as material from affiliated or related companies, principals, officers or employees. Stack's Bowers may have direct or indirect interests in any of the lots in the auction and may collect commissions. THE TWO PRECEDING SENTENCES SHALL BE DEEMED A PART OF THE DESCRIPTION OF ALL LOTS CONTAINED IN THE CATALOG. Where the Consignor has re-purchased a lot and the lot is either returned to the Consignor or otherwise dealt with or disposed of in accordance with the Consignor's direction, or pursuant to contractual agreement, Stack's Bowers reserves the right to so note in the prices realized or to omit a price from the prices realized. Stack's Bowers and its affiliates may bid for their own account at any auction. Stack's Bowers and its affiliates may have information about any lot that is not known publicly, and Stack's Bowers and its affiliates reserves the right to use such information, in a manner determined solely by them and for their benefit, without disclosing such information in the catalog, catalog description or at the auction. Bidder acknowledges and agrees that Stack's Bowers and its affiliates may not be required to pay a Buyer's Premium, or other charges that other Bidders may be required to pay and may have access to information concerning the lots that is not otherwise available to the public. Any claimed conflict of interest or claimed competitive advantage resulting therefrom is expressly waived by all participants in the Auction Sale. Lots may carry a Reserve. A Reserve is a confidential price or bid below which the Auctioneer will not sell an item or will re-purchase on behalf of the Consignor or for Stack's Bowers. The Buyer is the Bidder who makes the highest bid accepted by the Auctioneer, and includes the principal of any Bidder acting as an agent.

2. Descriptions and Grading. Bidder acknowledges that grading of most coins in this Auction have been determined by independent grading services, and those that are not may be graded by Stack's Bowers. Grading of rare coins is subjective and may differ among independent grading services and among numismatists, even though grading has a material effect on the value of the coins. Stack's Bowers is not responsible for the grades assigned by independent grading services, and makes no warranty or representation regarding such grades. Bidder further acknowledges and agrees that grades assigned by Stack's Bowers and lot descriptions are based solely upon an examination of the coins and are intended to note any perceived characteristics. However, coin grading and descriptions are subjective. Stack's Bowers does not warrant the accuracy of such grading or descriptions. All photographs in this catalog are of the actual items being sold but may not be the actual size or to scale.

3. The Bidding Process. The Auctioneer shall have the right to open or accept the bidding on any lot by placing a bid on behalf of the Consignor or his or her agent, a Bidder by mail, telephone, internet or telefax; or any other participant in the Auction Sale. Bids must be for an entire lot and each lot constitutes a separate sale. No lot will be broken up unless otherwise permitted by the Auctioneer. Lots will be sold in their numbered sequence unless Auctioneer directs otherwise. All material shall be sold in separate lots to the highest Bidder as determined by the Auctioneer. Auctioneer shall have the right in its sole and absolute discretion to accept or decline any bid, challenge any bid or bidding increment, to reduce any mail bid received, adjudicate all bidding disputes and to determine the prevailing bid. The Auctioneer shall have the right, but not the obligation, to rescind the acceptance of any bid and place the lot(s) for Auction Sale again. Auctioneer's decision on all bidding disputes shall be binding and final. For the mail and internet Bidder's protection, no "unlimited" or "buy" bids will be accepted. When identical bids are received for a lot, preference is given to the first bid received as deter-

mined by the Auctioneer. A mail bid will take precedence over an identical floor bid; a Floor Bidder and Telephone Bidder must bid higher than the highest mail bid to be awarded any lot. Bids will not be accepted from persons under eighteen (18) years of age without a parent's written consent which acknowledges the Terms of Sale herein and agrees to be bound thereby on behalf of the underage Bidder. The auction sale is complete when the Auctioneer so announces by the fall of the hammer or in any other customary manner.

THIS IS NOT AN APPROVAL SALE. Bidders who physically attend the Auction sale, either personally or through an agent ("Floor Bidders") should carefully examine all lots which they are interested in purchasing. Bidders who bid by telephone, either personally or through an agent, receive a similar benefit as Floor Bidders in being able to actively participate in the live Auction Sale ("Telephone Bidders"). Except as otherwise expressly provided in these Terms of Sale, NO PURCHASED ITEMS MAY BE RETURNED FOR ANY REASON. All prospective Bidders who examine the lot(s) prior to the Auction Sale personally assume all responsibility for any damage that Bidder causes to the lot(s). Stack's Bowers shall have sole discretion in determining the value of the damage caused, which shall be promptly paid by such Bidder.

STACK'S BOWERS IS NOT RESPONSIBLE FOR ANY ERRORS IN BIDDING. All Bidders should make certain to bid on the correct lot and that the bid is the bid intended. Once the hammer has fallen and the Auctioneer has announced the Buyer, the Buyer is unconditionally bound to pay for the lot, even if the Buyer made a mistake. Stack's Bowers reserves the right to withdraw any lot at any time, even after the hammer has fallen, until the Buyer has taken physical possession of the lot. No participant in the Auction Sale shall have a right to claim any damages, including consequential damages if a lot is withdrawn, even if the withdrawal occurs after the Auction Sale.

4. Bidder Registration Required. All persons seeking to bid must have a catalog and register to bid at the auction by completing and signing a registration card or bid sheet. By submitting a bid, the Bidder acknowledges that Bidder has read the Terms and Conditions of Auction Sale, the descriptions for the lot(s) on which they have bid, and that they agree to be bound by these Terms of Sale. This agreement shall be deemed to have been made and entered in California. The Bidder acknowledges that the invoice describing a lot by number incorporates the catalog and Terms of Sale.

5. Buyer's Premiums. For U.S. Coins and Currency Sales (auctioned by Stack's Bowers Galleries), a Buyer's Premium of fifteen percent (15%) on each individual lot will be added to all purchases made by Bidders, except for reacquisitions by Consignors, regardless of affiliation with any group or organization, and will be based upon the total amount of the final bid.

For World Coins and Currency Sales (auctioned by Stack's Bowers and Ponterio), a Buyer's Premium of eighteen percent (18%) on each individual lot will be added to all purchases made by Bidders, except for reacquisition's by Consignors, regardless of affiliation with any group or organization, and will be based upon the total amount of the final bid. However, if the purchaser pays for all invoiced lots in the sale in cash or by "cash equivalent" ("cash equivalent" is defined to include cashier's check or money order, approved check, wire transfer or other immediate bank transfer), the Buyer's Premium will be applied at a discounted rate of fifteen percent (15%).

A reacquisition charge may apply to Consignors pursuant to a separate agreement, which may be higher or lower than the Buyer's Premium. Payment is due immediately upon the fall of the auctioneer's hammer. Payment is delinquent and in default if not received in full, in good funds, within fourteen (14) calendar days of the Auction Sale (the "Default Date"), without exception, time being of the essence. Unless otherwise agreed in writing prior to the Auction Sale, all auction sales are payable strictly in immediately available good U.S. funds, through a bank

TERMS & CONDITIONS (CONT.)

in the United States. On any cash transaction or series of transactions exceeding \$10,000, Treasury Form 8300 will be filed. Contact Stack's Bowers for wiring instructions before sending a wire. **We accept payment by Visa, MasterCard, American Express or Discover for invoices up to \$5,000. We regret we cannot accept payment by credit card for invoices over \$5,000 for U.S. Coin and Currency purchases auctioned by Stack's Bowers Galleries.** Stack's Bowers reserves the right not to release lots for which good funds have not yet been received. On any past due accounts, Stack's Bowers reserves the right, without notice, to extend credit and impose carrying charges (as described below). Buyers agree to pay reasonable attorney's fees and cost incurred to collect past due accounts. Buyers personally and unconditionally guarantee payment in full of all amounts owed to Stack's Bowers. Any person submitting bids on behalf of a corporation or other entity, by making such bid, agrees to be personally liable for the payment of the purchase price and any related charges and the performance of all Buyer obligations under these Terms of Sale and Stack's Bowers reserves the right to require a written guarantee of such payments and obligations. Bidders who have not established credit with Stack's Bowers must furnish satisfactory credit references and/or deposit at least twenty-five percent (25%) of their total bids for that Auction Sale session(s) or such other amount as Stack's Bowers may, in its sole and absolute discretion require before any bids from such Bidder will be accepted. Deposits submitted will be applied to purchases. Any remaining deposits will be promptly refunded, upon clearance of funds. It is the Buyer's responsibility to contact Stack's Bowers after the sale to make shipping and packaging arrangements. Due to the fragile nature of some lots, Stack's Bowers may elect not to assume responsibility for shipping or packing, or may charge additional shipping and handling. Lots indicated as being "framed" are shipped at Buyer's risk. All taxes, postage, shipping, if applicable, handling, insurance costs, the Buyer's Premium, and any other fees required by law to be charged or collected will be added to the invoice for any lots invoiced to Buyer. All lots will be shipped FOB Destination, freight prepaid and charged back. Title and risk of loss pass to the Buyer at the destination upon tender of delivery. Acceptance of delivery constitutes acceptance of the purchased lots. Inspection of the purchased lots is not required for acceptance. Any and all claims based upon Buyer's failure to receive a purchased lot, Buyer's receipt of a lot in damaged condition, or otherwise related to delivery, must be received in writing by Stack's Bowers no later than the earlier of forty-five (45) days after payment, or the date of the Auction Sale (the "Outside Claim Date"). As Buyers may not receive notification of shipment, it is Buyer's responsibility to keep track of the Outside Claim Date and make timely notification of any such claim. The failure to make a timely claim, time being of the essence, shall constitute a waiver of any such claim.

Buyers will be charged all applicable sales tax, including Buyers who pick up at this Auction or shipments to Buyers in California and New York without a valid Resale Certificate which has been provided to the Auctioneer prior to the auction. Please note that the purchase of any coin or bullion lot(s) with a price, including the Buyer's Premium, in excess of: (i) One Thousand Dollars (\$1,000), for auctions held in Maryland, are exempt from Maryland sales tax, and (ii) One Thousand Five Hundred Dollars (\$1,500) are exempt from California sales tax. These exemptions do not apply purchases of currency. Purchases of coins and currency are exempt from sales tax in Illinois. Purchases of coins are exempt from sales tax in Pennsylvania, but currency purchased at auctions held in Pennsylvania are subject to Pennsylvania sales tax. On any tax not paid by Buyer that should have been paid, even if not collected by Stack's Bowers by mistake, error, negligence or gross negligence, Buyer remains liable for and agrees to promptly pay the same on demand together with any interest or penalty that may be assessed.

6. Financial Responsibility. In the event any applicable conditions of these Terms of Sale herein are not complied with by a Buyer or if the Buyer fails to make payment in full by the Default Date, Stack's Bowers reserves the right, in its sole discretion, in addition to all other remedies which it may have at law or in equity, to: (a) rescind the sale of that lot or any other lot or lots sold to the defaulting Buyer, retaining all payments made by Buyer as liquidated damages, it being recognized that actual damages may be speculative or difficult to compute, or (b) resell a portion or all of the lots held by Stack's Bowers, in a commercially

reasonable manner, which may include a public or private sale, in a quantity sufficient in the opinion of Stack's Bowers to satisfy the indebtedness, plus all accrued charges, and Stack's Bowers may charge a seller's commission that is commercially reasonable. More than one such sale may take place at the option of Stack's Bowers. If Stack's Bowers resells the lots, Buyer agrees to pay for the reasonable cost of such sale, together with any incidental costs of sale, including reasonable attorney's fees and costs, cataloguing and any other reasonable charges. Notice of the sale shall be by U.S.P.S. Certified Mail, Return Receipt Requested to the address utilized on the Bid Sheet, Auction Consignment and Security Agreement or other last known address by Stack's Bowers. The proceeds shall be applied first to the satisfaction of any damages occasioned by Buyer's breach, then to any other indebtedness owed to Stack's Bowers, including without limitation, commissions, handling charges, carrying charges, the expenses of both sales, reasonable attorneys' fees, costs, collection agency fees and costs and any other costs or expenses incurred. Buyer shall also be liable to Stack's Bowers for any deficiency if the proceeds of such sale or sales are insufficient to cover such amounts.

Buyer grants to Stack's Bowers, its affiliates and assignees, the right to offset any sums due, or found to be due to Stack's Bowers, and to make such offset from any past, current, or future consignment, or purchases that are in the possession or control of Stack's Bowers; or from any sums due to Buyer by Stack's Bowers, its affiliates and assignees. In addition, defaulting Buyers will be deemed to have granted to Stack's Bowers, its affiliates and assignees, a security interest in: (x) the purchased lots and their proceeds, and (y) such sums or other items and their proceeds, in the possession of Stack's Bowers, its affiliates or assignees, to secure all indebtedness due to Stack's Bowers and its affiliated companies, plus all accrued expenses, carrying charges, attorney fees, and costs, until the indebtedness is paid in full. Buyer grants Stack's Bowers the right to file a UCC-1 financing statement for such items, and to assign such interest to any affiliated or related company or any third party deemed appropriate by Stack's Bowers. If the auction invoice is not paid for in full by the Default Date, a carrying charge of one-and-one-half percent (1-1/2%) per month may be imposed on the unpaid amount until it is paid in full. In the event this interest rate exceeds the interest permitted by law, the same shall be adjusted to the maximum rate permitted by law, and any amount paid in excess thereof shall be allocated to principal. Buyer agrees to pay all reasonable attorney's fees, court costs and other collection costs incurred by Stack's Bowers or any affiliated or related company to collect past due invoices or to interpret or enforce the terms hereof or in any action or proceeding arising out of or related to the Auction Sale. Stack's Bowers reserves the right to assign its interest to any third party. To the extent that the Buyer for any lot consists of more than one person or entity, each such person or entity is jointly and severally liable for all obligations of the Buyer, regardless of the title or capacity of such person or entity. Stack's Bowers shall have all the rights of a secured party under the California Uniform Commercial Code and all rights of the consignor to collect amounts due from the Buyer, whether at law or equity.

7. DISCLAIMER AND WARRANTIES. NO WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE IS MADE OR IMPLIED ON ANY LOT. NO WARRANTY, WHETHER EXPRESSED OR IMPLIED, IS MADE WITH RESPECT TO ANY LOT EXCEPT FOR WARRANTY OF TITLE, AND IN THE CASE OF TITLE, AUCTIONEER IS SELLING ONLY THAT RIGHT OR TITLE TO THE LOT THAT THE CONSIGNOR MAY HAVE AS OF THE AUCTION SALE DATE. ALL LOTS ARE SOLD "AS IS" AND WITH ALL FAULTS. PURCHASER HEREBY ASSUMES ALL RISKS CONCERNING AND RELATED TO THE GRADING, QUALITY, DESCRIPTION, CONDITION, AUTHENTICITY, AND PROVENANCE OF A LOT.

a. COINS LISTED IN THIS CATALOG GRADED BY PCGS, NGC OR ANACS CACHET, OR ANY OTHER THIRD PARTY GRADING SERVICE OR EXAMINED BY THE BUYER PRIOR TO THE AUCTION SALE MAY NOT BE RETURNED FOR ANY REASON WHATSOEVER BY ANY BUYER, EXCEPT FOR CLAIMS RELATED TO AUTHENTICITY.

b. For non-certified coins that have not been examined by the Buyer prior to the Auction Sale: if it is determined in a review by Stack's Bowers that there is a material error in the catalog description of a non-certified coin or the coin is not authentic, such lot may be returned, provided written notice is received by Stack's Bowers no later than seventy-two (72) hours of delivery of the lots in question, and such lots are returned and received by Stack's Bowers, in their original, sealed

containers, no later than fourteen (14) calendar days after delivery, in the same condition the lot(s) were delivered to the Buyer, time being of the essence.

c. If an item or items are returned pursuant to the terms herein, they must be housed in their original, sealed and unopened container.

d. Late remittance or removal of any item from its original container, or altering a coin constitutes just cause for revocation of all return privileges.

e. Grading or condition of rare coins may have a material effect on the value of the item(s) purchased, and the opinion of others (including independent grading services) may differ with the independent grading services opinion or interpretation of Stack's Bowers. Stack's Bowers shall not be bound by any prior, or subsequent opinion, determination or certification by any independent grading service.

f. Questions regarding the minting of a coin as a "proof" or as a "business strike" relate to the method of manufacture and not to authenticity.

g. All oral and written statements made by Stack's Bowers and its employees (including affiliated and related companies) are statements of opinion only, and are not warranties or representations of any kind, unless stated as a specific written warranty, and no employee or agent of Stack's Bowers has authority to vary or alter these Terms and Conditions of Auction Sale. Any alteration shall be effective only if in writing and signed by an officer of Stack's Bowers authorized to do so. Stack's Bowers reserves the right to vary or alter the Terms of Sale, either generally or with respect to specific persons or circumstances, in its sole discretion. Any variation or alteration shall be effective only if in writing and signed by an officer of Stack's Bowers authorized to do so.

h. Bidders shall have no recourse against the Consignor for any reason whatsoever.

i. Bidder acknowledges that the rare coin market is speculative, unregulated and volatile, and that coin prices may rise or fall over time. Stack's Bowers does not guarantee that any customer buying for investment purposes will be able to sell for a profit in the future.

j. Bidder acknowledges and agrees that neither Stack's Bowers, nor its employees, affiliates, agents, third-party providers or consignors warrant that auctions will be unimpaired, uninterrupted or error free and accordingly shall not be liable for such events.

8. Waiver and Release. Bidder, for himself, his heirs, agents, successors and assignees, generally and specifically waives and releases, and forever discharges Stack's Bowers, and its respective affiliates, parents, shareholders, agents, subsidiaries, employees, members of their respective boards of directors, and each of them, and their respective successors and assignees from any and all claims, rights, demands and causes of actions and suits, of whatever kind or nature, including but not limited to claims based upon Auctioneer's negligence, whether in law or equity, whether known or unknown, suspected or unsuspected (a "Claim"), which Bidder may assert with respect to and/or arising out of, or in connection with any challenge to the title to or authenticity of any goods purchased, the sale itself, any lot bid upon or consigned, and/or the auction, except where such Claim is otherwise expressly authorized in these Terms of Sale. It is the intention of Bidder that this waiver and release shall be effective as a bar to each and every Claim that may arise hereunder or be related to the Auction Sale, and Bidder hereby knowingly and voluntarily waives any and all rights and benefits otherwise conferred upon him by the provisions of Section 1542 of the California Civil Code, which reads in full as follows:

"A GENERAL RELEASE DOES NOT EXTEND TO CLAIMS WHICH THE CREDITOR DOES NOT KNOW OR SUSPECT TO EXIST IN HIS OR HER FAVOR AT THE TIME OF EXECUTING THE RELEASE, WHICH IF KNOWN BY HIM OR HER MUST HAVE MATERIALLY AFFECTED HIS OR HER SETTLEMENT WITH THE DEBTOR."

9. Disputes. If a dispute arises concerning ownership of a lot or concerning proceeds of any sale, Stack's Bowers reserves the right to commence a statutory interpleader proceeding at the expense of the Consignor and Buyer and any other applicable party, and in such event shall be entitled to its reasonable attorneys' fees and costs. Stack's Bowers reserves the right to cancel or postpone the Auction Sale or any session thereof for any reason whatsoever. No Bidder shall have

any claim as a result thereof, including for incidental or consequential damages. Neither Stack's Bowers nor any affiliated or related company shall be responsible for incidental or consequential damages arising out of any failure of the Terms of Sale, the auction or the conduct thereof and in no event shall such liability exceed the purchase price, premium, or fees paid. Rights granted to Bidders under the within Terms and Conditions of Auction Sale are personal and apply only to the Bidder who initially purchases the lot(s) from Stack's Bowers. The rights may not be assigned or transferred to any other person or entity, whether by sale of the lot(s), operation of law or otherwise. Any attempt to assign or transfer any such rights shall be absolutely void and unenforceable. No third party may rely on any benefit or right conferred by these Terms and Conditions of Auction Sale.

10. General Terms. These Terms and Conditions of Auction Sale and the auction shall be construed and enforced in accordance with, and governed by, the laws of the State of California, regardless of the location of the Auction Sale. Any dispute arising out of or related to these Terms of Sale, the Auction Sale or any lot, with the sole exception of actions by Stack's Bowers to collect amounts owed to it and other damages, shall be submitted to binding arbitration pursuant to the rules of the Professional Numismatics Guild ("PNG"). Bidder acknowledges and agrees that the competent courts of the State of California shall have exclusive jurisdiction, subject to the requirement to arbitrate, over any dispute(s) arising hereunder, regardless of any party's current or future residence or domicile. Bidder further agrees that venue of the arbitration proceeding shall be in Orange County, California; and any court proceeding shall be in the Orange County Superior Court, in the State of California. Bidder agrees that any arbitration or legal action with respect to this Auction Sale is barred unless commenced within one (1) year of the date of this Auction Sale. These Terms of Sale and the information on the Bower's website constitute the entire agreement between the parties hereto on the subject matter hereof and supersede all other agreements, understandings, warranties and representations concerning the subject matter hereof. If any section of these Terms of Auction Sale or any term or provision of any section is held to be invalid, void, or unenforceable by any court of competent jurisdiction, the remaining sections or terms and provisions of a section shall continue in full force and effect without being impaired or invalidated in any way. Stack's Bowers may at its sole and absolute discretion, make loans or advances to Consignors and/or Bidders.

11. Special Services. If you wish to limit your total expenditures, please fill in the maximum amount you wish to spend on the MAXIMUM EXPENDITURE line at the upper portion of your bid sheet. You can then submit bids for amounts up to eight times the amount of the maximum expenditure. This is a personal service and a Stack's Bowers customer representative will personally attend to your bid sheet by bidding from the auction floor, buying lots for your account until your authorized expenditure is reached. While we will do our best in your behalf, due to the speed of the auction sale and the sometimes crowded conditions, we cannot be responsible for failure to execute such a bid properly. Due to the bookkeeping involved, this service is offered only to bidders with maximum expenditures of \$1,000 or more.

We invite you to take advantage of the optional 10% to 30% increase to help your chance of being a successful bidder. Check the appropriate place on your bid sheet.

Bidding in this auction sale constitutes unconditional acceptance by the Bidder of the foregoing terms of sale.

Please note: Transparent holders in which the auction lots are stored are to facilitate viewing and inspection of the lots and ARE NOT for long-term storage.

A UNIQUE RARITY

from the *S.S. Central America* Treasure!

The most important treasure ever found was that of the *S.S. Central America*. Lost in the Atlantic on September 12, 1857, the ship went down with several hundred passengers and about \$1.6 million in United States gold coins and ingots from the Gold Rush, in an era in which gold was valued at \$20.67 per ounce. No greater or more important American numismatic treasure will ever be found, as no greater treasure was ever lost!

In the 1980s the Columbus-America Discovery Group, led by Tommy Thompson and Bob Evans, located the wreck of the *S.S. Central America* in 7,200 feet of water far off the coast of North Carolina, and in 1999, the treasure was made available. On behalf of investors, Dwight Manley formed the California Gold Marketing Group (CGMG) to sell the treasure, comprising over 5,000 freshly minted 1857-S double eagles, nearly 500 gold ingots from Gold Rush assayers, and other coins—somewhat over 6,000 items in all.

In 2000 a special "Ship of Gold" exhibit was the prime attraction at the ANA Convention and other venues as viewers saw the treasures first-hand. Beth Deisher, editor of *Coin World*, called the *Central America* gold "the story of the year." Excitement was everywhere!

In the meantime a close associate of the CGMG was given his first choice to buy *any* ingot—before CGMG offered them

elsewhere. He picked the unique Harris & Marchand gold bar attributed to Marysville, California. After this, all the ingots and coins were sold; today the aftermarket for the gold treasure is dynamic, and purchasers can bask in the warm glow of the appreciation of value.

In 2004 this unique ingot and other *S.S. Central America* highlights, plus a rich assortment of coins and artifacts, went on a grand tour titled GOLD! This traveling exhibit drew visitors from New York City to Tokyo, with stops in between. The GOLD! world tour ended in Chicago in March 2011, having been viewed by millions. Now the owner of ingot No. 7095, having owned it since 2000, has decided to let someone else share the pleasure and has consigned it to Stack's Bowers Galleries.

Never before has this unique ingot been offered for public sale. The fortunate owner will be the only person who has the possibility of building a set of the seven different ingot varieties! Needless to say, once sold this opportunity may not recur in the lifetime of anyone living today.
